

Phonograms are All Around

Phonograms are  
all around,  
all around,  
all around.  
Phonograms are  
all around  
in all the words we see.

A phonogram may  
have three letters,  
have three letters,  
have three letters. ‘  
A phonogram may  
have three letters,  
but only make one sound.

Phonograms show the  
smallest sounds,  
smallest sounds,  
smallest sounds.  
Phonograms show the  
smallest sounds  
in all the words we see.

A phonogram may  
have four letters,  
have four letters,  
have four letters.  
A phonogram may  
have four letters,  
but only make one sound.

A phonogram may  
have one letter,  
have one letter,  
have one letter.  
A phonogram may  
have one letter,  
but only make one sound.

Phonograms are  
all around,  
all around,  
all around.  
Phonograms are  
all around  
in all the words we see.

A phonogram may  
have two letters,  
have two letters,  
have two letters.  
A phonogram may  
have two letters,  
but only make one sound.
